TO RECEIVE BIDS FOR TWO STREETS

Commissioners Fix May 25 for Ac-
cepting Estimates on Paving
First and Eleventh

NO TIME SET ON CAPP ROAD

Township Can Build Only Two at
This Time and New Salem Pike
Will Have to Wait

Bids will be received by the county
commissioners on May 25 for the
paving of Eleventh street under the
three-mile road law. This action
was taken late yesterday afternoon
after the report of the viewers had
been accepted and approved.

This action on the part of the
commissioners had been expected.
With three petitions pending for
permanent highways in Rushville
township and funds sufficient for the
construction of two of the roads,
First street and Eleventh street,
were believed to be favored. The re-
port of the viewers on the Frank
Capp, et al., road, known as the New
Salem pike, which is the third road
in the township, was accepted and
approved and the road was ordered
established but the bids were not ad-
vertised. This road will be ready
for bids just as soon as the town-
ship reaches a financial stage speci-
fied by law.

The resolutions of the city council
turning over both First street and
Eleventh street to the county for
construction were read and made a
part of the Frank Green, et al.,
highway will be paved with con-
crete. This will be the first concrete
highway of any length in the county
and the result will be watched with
interest.

The plans and specifications for
the Norris ford bridge were ap-
proved and bids were advertised for
May 25.

John Whitton was appointed super-
intendent of construction for the
Omer Thompson highway. The view-
ers for the Charles L. Smullen high-
way in Washington township asked
for further time and this was ex-
tended to May 20.

The commissioners were in session
again today allowing the usual
claims

WOULD REMOVE MAN AS KIN'S GUARDIAN

O. M. Offutt Alleges Land Under W.
A. Cowger's Management is
Not Getting Attention

CASE IS UNDER ADVISEMENT

Judge Sparks heard the evidence
today in the case of Oliver M. Offutt
against William A. Cowger in which
it is sought to remove Cowger as
guardian for his brother Elmer Cow-
ger. The court took the case under
advisement. It was alleged that the
land under the guardianship has
been allowed to depreciate and is not
getting the proper attention.

The parties to the suit live in
Posey township and a number of
Posey township people were witness-
es. It was alleged that Mr. Cowger
was of unsound mind and not cap-
able of acting as guardian. During
the introduction of evidence it was
brought out that Mr. Cowger was a
believer in the occult. Witnesses
were about equally divided as to his
sanity and as to the value of the
land in question.

IT MIGHT HAVE BEEN WORSE

Nineteen Years Ago There Was
Three Inches of Snow

Today might have been consid-
ered a cold, damp dreary spring day,
but it could have been worse. For
instance nineteen years ago today
there was three inches of snow on
the ground. Many of the older peo-
ple recalled this unusual occurrence.
Despite the snow that year and the
late spring season the farmers all
had record crops. The snow cov-
ered the ground for several hours but
did little damage, according to one
man who today recalled the event.

HUSBAND AT STATE FARM; ASKS DECREE

Mrs. Mart Clevenger Files Suit For
Divorce, Alleging he Made
Threats Against Her Life

ACTION IS A BIG SURPRISE

The troubles of Martin Clevenger
seem to come in bunches. With
Mart following agricultural pur-
suits at the state penal farm where
he was recently sent upon convic-
tion of a "blind tiger" charge, his
wife is asking for a divorce. Mrs.
Edith Clevenger filed the suit late
last evening.

She alleges cruel and inhuman
treatment and claims that he cursed
her and called her vile and vulgar
names. She also avers that he
threatened to strike her and fre-
quently threatened to kill her. Mrs.
Clevenger also mentions that he is
serving time at the penal farm and
states that she was left without any
means of support. She asks the cus-
tody of their three children and alim-
ony in the sum of \$200.

The action of Mrs. Clevenger came
as a surprise to many. She testified
in his behalf at the recent "blind
tiger" trial and seemed to take a
great interest in the case. Kiplinger
and Smith represent the plaintiff.

FORMER RUSHVILLE BOY IS BADLY HURT

Harold Miller May Not Recover
From Effects of Being Crush-
ed in Elevator Machinery

ONE OF ARMS AMPUTATED

The following from the Indiana-
polis Star today tells of the probable
fatal injury of Harold Miller, son of
William Miller of this city and him-
self lately a resident here:

Harold Miller, 21 years old, 925
Highland avenue, was perhaps fatal-
ly injured in an elevator accident in
a store yesterday. Bicyclemen John-
son, Ludgin and Leonard investiga-
ted. Miller was lowering five bar-
rels of salted peanuts into the base-
ment when the brakes broke, it is
said, causing him to be thrown
against the elevator machinery. His
arm was mashed in the cogs and was
amputated at the City Hospital. His
head was severely bruised.

ABOUT 500 REBELS KILLED

(By United Press.)
Dublin, May 2.—At least 500 rebels
were killed and 1,500 wounded in the
seven days of fighting in the streets
of Dublin, it was estimated today by
soldiers who completed a canvass of
the city.

CITY TEAM RUNS OFF EARLY TODAY

Young Horses Demolish Wagon and
Injure Driver, Fred Wachendorf
When Bed Comes Off.

NO SYMPATHY WITH CLEAN-UP

Dash Down Alley And Mount Peo-
ple's Porches When Starting
on Clean-up Trip

A team of young horses driven to
a city wagon, with no sympathy for
the clean-up movement, demolished
the wagon, injured their driver,
broke down an electric light pole
and almost demolished the porch of
a double house, this morning, when
men employed by the city were pre-
paring to start on the rounds gather-
ing up debris as a part of the
clean-up week plans.

Fred Wachendorf, who was driv-
ing the horses, and his step-father,
William Trennepohl who was also in
the wagon, were thrown out. The
wagon bed came off and was hurled
on top of Wachendorf. He was badly
bruised and it was first thought
that he had been internally injured.
However, later in the day the opin-
ion was expressed that his injuries
would not prove to be serious.

The team started to run while in
the alley between Morgan and Har-
rison streets near the firebell tower
where the city workmen keep their
tools. The horses soon got from
under Wachendorf's control and be-
fore they reached the C. I. & W.
railroad had deposited the wagon-
bed and its occupants in the alley.

Free to run as hard and fast as
they pleased, the horses dashed
across the railroad depositing the
back end of the wagon on the north
side of the railroad and the front
end on the south side. Running on
south down the alley, they ran into
an electric light pole at the corner
of the alley and Third street, break-
ing it off at the ground. Both horses
fell down and became entangled in
wires.

One managed to get up and con-
tinued to run, mounting the porch of
the double house on the south side
of Third street. One side of the
house is occupied by Mr. and Mrs.
George Priest and family and the
other side is vacant. The horse got
up on to the porch and fell down and
kicked the side of the house and the
pillars of the porch, tearing some of
them loose. The whole neighborhood
was aroused by the noise.

The horse finally jumped from the
porch and ran on west in Third
street, finally being caught near J.
P. Frazee's lumber yard. In the
meantime the other horse got out of
the tangled wires and ran east in
Third street and was caught at the
central fire station.

GRAIN WOULD BE DROUGHT PROOF

Corn and Wheat That Will With-
stand Dry Weather may be In-
troduced in This Country

NEEDS ONLY LITTLE MOISTURE

One is Found in Palestine and An-
other in China and Experi-
ments Will be Tried

It is not unlikely that the major-
ity of Rush county farmers do not
know that experiments are being
carried forward looking to the devel-
opment of a variety of wheat and a
variety of corn that will withstand
drought and that will flourish on
lands comparatively arid.

A wheat has been found in Pales-
tine, growing wild, that grows
thrifty on a minimum of moisture.
And there has been found in China
a variety of corn that is said to be
proof against dry winds. Steps to
provide seed of both of these ce-
reals in this country are being taken
and it is thought that both will be
found growing in immense acreage,
particularly in the west, within the
next few years.

In an address delivered in Indi-
anapolis one evening recently, Prof.
John M. Coulter, of Chicago Univer-
sity, spoke of these discoveries as
follows:

"More than from all other sources
we lose cereal crops by reason of
drought. No wild wheat could be
found in the world until Aaron
Aronson, a young Jew, reasoned that
this, one of the oldest, if not the
oldest, food crop in the world, might
be found wild in Palestine and that
when found it would be free from
the weaknesses of our present
wheat. He did find in it Palestine
growing literally on rocky ground
and with very little moisture.

"He took this to Europe but met
a cold reception. He then wound his
way into the laboratory of the Chi-
cago University. Wealthy Jews put
up the money to send him back to
Palestine to cultivate this wheat and
prepare to provide the world with
seed. The process was well along
when the war broke out, but in the
meantime samples had been sent to
American agricultural stations. Ar-
onson is now moving his plant to
this country and in a short time it
is expected that seed will be provid-
ed for wheat on the arid plains of
the west.

"One thread of silk runs from
each kernel of corn to the top of the
ears of our corn. This must be con-
stantly moist in pollen time or the
kernels will not fill out. A dry blast
of wind in the west may destroy this
moisture in a few hours and the crop
will fail.

"A Presbyterian missionary in
Chicago found a species of corn
which beats the dry wind. Its leaves
grow so as to form a little pocket or
funnel. The pollen is shaken down
from the tassel and is caught in this
funnel. The silk of the corn grows
up through this pollen and by the
time it reaches the hot blast the
kernels are fertilized. This corn is
also being cultivated for seed and
our western dry plains will be cov-
ered with it."

BEGINS SIXTH YEAR

Yesterday marked the beginning
of the sixth year of the Rev. C. M.
Yocum's pastorate at the Main
Street Christian church. The coin-
cidence was noted yesterday that he
and Mrs. Yocum came here five
years ago May 1 and that the day of
their arrival here was Monday, just
as May 1 this year fell on Monday.

Mrs. J. O. Price is critically ill at
her home north of Milroy.

WORKING ON REPORTS NOW

Assessors Have Assessing Work
About Completed

The assessors have about com-
pleted their work for this year and
will spend most of the next two
weeks in making up their reports.
Only a few people have not been as-
sessed and the work is completed in
many of the townships. In Rushville
only a few remain to be assessed
and these are of a class that is hard
to find. The assessors must report
by May 15 and the time from now on
will be taken up with getting out the
reports.

GERARD ARRIVES FROM CONFERENCE

Germany's Reply to American Note
on Submarine Question is
Now Completed

FEW ALTERATIONS POSSIBLE

(By United Press.)
Berlin, May 2.—Ambassador Ger-
ard arrived here today from a con-
ference with the kaiser at field
headquarters.

Germany's reply to the American
note demanding a change in subma-
rine warfare under threat of diplo-
matic break has been completed.

Some few alterations may be
made in its text. These, however,
will not alter the character of the
note which was decided upon several
days ago. Nothing definite can be
learned as to when it will be dis-
patched but it is thought possible it
will be put on the cable to Washing-
ton tonight or tomorrow.

STATE MILITIA IS TO BE CALLED OUT

Following Serious Rioting at Pitts-
burgh Steel Plant Today, Sheriff
Makes This Announcement

THREE KILLED; FORTY HURT

(By United Press.)
Pittsburgh, May 2.—Following
serious riots in which three were
killed and at least forty injured,
many seriously at the Edgar Thomp-
son Steel company's plant Brad-
dock, Sheriff Richards announced
this afternoon that the militia will
be ordered out at once. He made
that statement after a hurried con-
ference with state officials.

Pittsburgh, May 2.—One hundred
coal and iron police of the Carnegie
Steel company were brought to the
Pittsburgh district today from Gary,
Ind., and Youngstown to help guard
the Edgar Thompson steel plant at
Braddock and other big plants
where strikes are threatened. It was
announced that 400 members of the
special police would arrive during
the day.

The big Braddock plant operated
today with a reduced force. Report
of a number of defections ranged
from 1,000 to 5,000. Resumption of
rioting by the Westinghouse and al-
lied strikers was expected momen-
tarily.

BRITISH TO TRY CONSCRIPTION

Premier Asquith Announces Today
Government Has Decided on
Policy of General Compulsion

BILL WILL BE INTRODUCED

Since Beginning of War British
Have Raised Army of 5,000,000
Men, Premier Says

(By United Press.)
London, May 2.—Premier Asquith
this afternoon announced in the
house of commons that the govern-
ment has decided upon a policy of
immediate and general compulsion in
England.

The government will introduce a
bill for general conscription tomor-
row. The prime minister informed
commons that since the beginning of
the war the British had raised five
million troops. The British army is
composed of 83 divisions, he said,
not counting the Indian forces.

The announcement came as a
complete surprise. It had been un-
derstood that the prime minister
would give the voluntary system of
obtaining recruits for the army a
few weeks more trial before asking
enactment of the law calling to the
colors all married men eligible for
service as well as single men in-
cluded in the conscription measure
which recently passed Parliament.

Premier Asquith's decision for
compulsory service is a complete
victory for Minister of Munitions
Lloyd George and the Northcliffe
papers which have waged a cam-
paign for general military service
for many months.

HIS MOTHER DISAPPEARS

Flatrock Boy Unable to Explain
Why She Left Him on Street

(By United Press.)
Indianapolis, Ind., May 2.—John
Lee Anderson, age 10, son of Mr.
and Mrs. Charles Bebout, farmer,
living near Flatrock, Shelby county,
Indiana, could not explain today the
mysterious disappearance yesterday
of his mother while they were on the
street here together. He was taken
to the detention home today while
the police started a search for the
mother. If found, she will be asked
to explain the seeming desertion
of her child.

—Miss Stella Shortridge of Fal-
mouth went to Indianapolis this af-
ternoon for a visit with friends and
relatives.

—Frank Thompson of Indiana-
polis, formerly of this city, was here
today on business. He spent last
week in Mississippi.

Church Advertising

"I believe," says Dr. Talcott
Williams, "that if the churches
spent as much for advertising as
they do for music, they would
have larger congregations and
better worship."

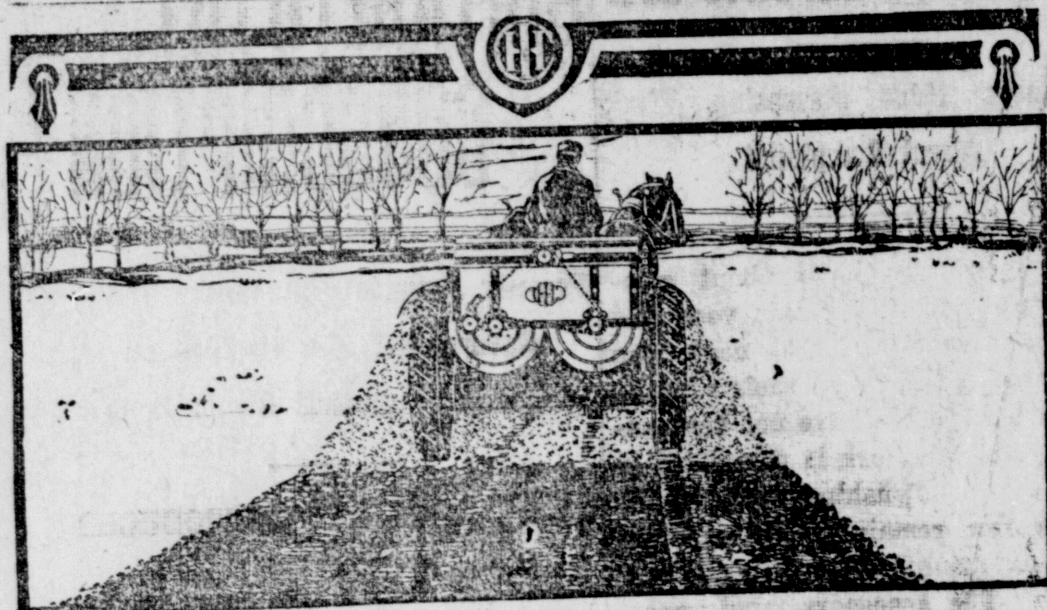

"If great causes were to
spend more money in the public
press instead of depending on
begging for their support they
would undoubtedly come much
nearer to success."

Thought is moving in this di-
rection. The churches are us-
ing more and better advertising
while many public movements
have been successfully carried on
through the advertising columns
of the daily newspapers.

Drive It Into the Barn

As we told you, a Low Cloverleaf gives the manure a double beating. It also spreads manure eight feet wide or better. But the wonderful thing is that it does this from a box only 45 inches wide. The spreader itself is so narrow that it can be driven into any modern barn and loaded from the gutters. Only one handling of the manure for the quickest, best job of spreading you ever did. How does that sound to you?

If you have even begun to think about buying a spreader, see this Low Cloverleaf. You will say you never saw a better manure spreader. It won't take long to look it over. Your dealer has one set up for you to see.

For every dollar you put into a
Coldwell Lawn Mower
you get full 100 cents value.

Coldwell's are the lasting kind. Always ready to use. None of that waiting to have them sharpened.

Coldwell's have been on the market since 1855. The largest lawn mower factory in the world is their home.

Coldwell materials and workmanship are what make the Coldwell product supreme.

You pay a trifle more for a Coldwell, but in the end they cost you less—you save money on repairs and for re-sharpening.

You can forget where the "repair shop" is if your lawn mower is a Coldwell.

Woman Sufferers Need Swamp-Root

Thousands upon thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer a great deal with pain in the back, headache, loss of ambition, nervousness and may be despondent and irritable. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, restores health to the kidneys and is just the remedy needed to overcome such conditions. Get a fifty-cent or one dollar a bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Birmingham, N. Y., for a sample bottle. When writing to be sure and mention the Rushville "Daily Republican."

County News

Glenwood.

The Rev. Daniel Ryan was called to Waldron Sunday afternoon to preach the funeral of Captain Thos. L. Haymond, an old friend and comrade who died from injuries sustained when his automobile was hit by an interurban car in Waldron last Tuesday. There were no preaching services at the M. E. church Sunday on that account. Epworth League was held as usual Sunday evening. The usual services were held at the United Presbyterian church Sabbath afternoon. Many Glenwood citizens have been attending the trial of the Hinchman will case at Newcastle. Marshal Brooks was kept busy Sunday watching for motor speeders on the Rushville-Connersville pike. Mr. and Mrs. Grant Palmer of Greensburg and Mrs. Addie Reed and Sheridan Palmer of Glenwood motored to Knightstown Sunday to see Mrs. Harry Parmer, who is critically ill. Mr. and Mrs. J. E. Fisher and sons Gilbert and Park spent the week end at Fairfield, Fayette county. C. L. Reed and G. E. Holmes attended the district meeting Red Men at Rushville last Thursday. Mr. and Mrs. Oliver Mingle of Connersville visited here and Mrs. Mingle's parents and his brother at Orange Sunday. Mr. and Mrs. James Brooks of Dunreith motored to Glenwood Sunday and visited their sons, Monroe and Budge. C. M. Demoss, an old time resident of this place, who now lives southeast of here, spent a few days last week in Indianapolis. Isaac Baker and Harry Wilson are recovering from an attack of the measles. Ernest Perry is assisting George C. Jones erect a new house just north of the Bilby stop on the I. & C. traction line east of here. Mr. and Mrs. Clattie Stevens of south of Connersville visited the former's parents here Sunday and took Mr. and Mrs. T. J. Stephens out for an automobile ride. Mr. and Mrs. J. H. Link and son Leslie and Mr. and Mrs. Clyde Matney spent Sunday with Mr. and Mrs. Elmer Stevens of Orange. William Cameron took the teachers' examination at Connersville Saturday. Mr. and Mrs. Charles Newhouse spent Sunday with Dr. and Mrs. J. E. Walther. Mr. and Mrs. A. P. Reynolds and daughter Vera visited Mr. and Mrs. Will Havens of West Arthur street, Rushville, Sunday. James Ochiltree was a witness in the Hinchman will case at Newcastle one day last week. Many young people from here attended the baccalaureate sermon at the Orange Christian church Sunday night. Will Larimore has moved his stock of goods to Columbia, Fayette county, where he will set up in business. Miss Violet Burkhart of East Connersville, who was a roommate of the late Miss Gladys Mapes in Indianapolis, stopped off Sunday for a visit with Mr. and Mrs. John Mapes.

Blue River.

The farmers have been greatly delayed in their spring work on account of the heavy rains. The little child of Mr. and Mrs. Chas. Northam is suffering with the scarlet fever, but is reported to be past the danger point and convalescing. The funeral of George Brown was held at the Little Blue River United Brethren church at 10 a. m., Sunday. The Rev. Mr. Powell, the pastor conducted the services. Samuel Moore is making preparations to build a new barn. A number of people from here attended the lecture given by Prof. Jones, of Earlham College, at the Westland Friends church Sunday afternoon. The subject was "Present Day Opportunities." The community was well represented at the Manilla high school commencement held Friday night, in the

large auditorium of the new school building there. The address was given by the Rev. Geo. A. Winfrey, of Alexandria, Ind. Music by the Shelbyville orchestra. There were five graduates in the class.

Wendall Pitts is preparing to do "Gasoline Farming" this season. He has purchased a new tractor and plows.

D. A. Macy and family were guests of Mrs. Macy's father and mother, Mr. and Mrs. Noah Wooten, of near Westland, Sunday.

Carroll Pitts has been making a study of wireless telegraphy for some time, having erected a first class receiving station. He has become efficient enough now so that he receives the weather forecasts, the time, and general press news from the Government stations at Washington, Key West and Pensacola also from other commercial stations. He has been getting news of Mexican and European affairs before they would appear in the daily papers.

Russell and Erd Pitts were visitors to Indianapolis Sunday.

Jasper Hester is having timber sawed to use in the erection of a new stucco finished residence.

Frank Thayer, who recently purchased the farm formerly owned by Charles Macy, is preparing to build a new barn.

Miss Monnie Macy, who some time ago underwent a successful operation for the removal of a tumor, at Rochester, Minn., is soon to leave for home.

WOULD NOT LIKE BLUE BOOK HERE

This Part of Swiss Military System
Would Not Make a Hit With
American People.

IS NOT THOUGHT PRACTICAL

Shows Record of Bearer and Federal Government is in Control at all Times.

BY WILLIAM G. SHEPHERD.
(U. P. Staff Correspondent.)

Berne, May 2.—A little blue book, Mr. American, with your name and your photograph and a score of facts about your life written in it, which you would carry in your pocket all the time, would be the token of the upheaval in American life which would be caused by the introduction of the Swiss military system, in its entirety, in the United States.

"Here's my book" said Luigi Corti, a storekeeper of Chicago, who used to live in Texas. "Every Swiss must carry his book with him. When I go to the bank I take it. When I go to a strange Swiss city I'm asked for it. I show it when I register at the hotel, when I draw money, when I send a telegram. My book will show it."

"Do you think Americans would like to have to carry books like that?"

"Not the kind of Americans I used to know in Texas twenty years ago. Americans don't like their government to interfere with them," said Luigi.

Luigi was in the American army during the Spanish-American war.

"This little book," he explained, "is issued by the federal government. Down in Texas the folks got along alright with the mayor and the policemen and the sheriff, but the minute you said 'United States Marshal' they pricked up their ears. 'American folks don't like to be governed by Washington.'"

Luigi Corti had his Texas folks right. He had a lot of other Americans right, too. This little blue book would mean that you were tabbed and listed by the federal government.

Some years ago this would have sounded more un-American than it does today, because in reality you are now tabbed and listed in the federal income rolls. But this little book of military service and citizenship would keep you in your niche, right under the eye of the federal military authorities, all the time.

If you left Chicago to live in Cleveland you would be forced to have you military book vided by the military commander of the city you were leaving and signed by the commander in the city to which you moved. A centralized government would

WILL CONTINUE "DRY" AFTER WAR

Russia Will Keep Prohibition as Far
as Vodka is Concerned—Will
Permit Wines.

PASSAGE OF LAW ASSURED

(By United Press.)
Petrograd, May 2.—Russia will continue "dry" after the war, so far as vodka is concerned. The limited

sale of beer and light wines will be permitted.

The bill for both prohibition and limitations has been introduced in the дума and its passage is assured. The czar and his advisors approve it.

Finland is not included. "It is forbidden to produce alcohol for vodka," says the bill, "or to import alcohol."

Alcohol production for mechanical and medicinal purposes is authorized only by the government. Its sale, except by the government, is prohibited. The order against production will include individuals, even though their product be only for their own household consumption.

The sale of beer and light wines will be prohibited except in towns. Local councils may prohibit it altogether.

The government also will limit the percentage of alcohol in both beers and wines.

GREAT EXHIBIT IS EXPECTED

State Correctional Institutions Will Show Products at National Conference Next Week.

TO COVER ALL DEPARTMENTS

One of Interesting Features Will be That From State Prison Hospital For Insane.

(By United Press.)

Indianapolis, Ind., May 2.—The forty-third annual session of the National Conference of Charities and Correction to be held in Indianapolis, May 10 to 17, promises to bring out the greatest exhibit of products of the State Correctional and Charitable institutions ever offered for inspection. Among the interesting exhibits promised is that of the Indiana State Prison at Michigan City. The exhibit from this institution will embrace features from practically every department of the Prison.

Not only will the articles manufactured in the Prison be displayed, but also charts and figures will be exhibited showing the growth of the institution from the date of its founding down to the present time; school statistics will be offered; a photographic story of the prison will be shown; exhibits of special classes in an architectural and figures will be exhibited and a score of other interesting features will be offered for the public inspection.

One of the most interesting features of the State Prison will be the exhibit of the products of the industrial department of the Indiana hospital for insane criminals. In view of the fact that this institution is the first institution for the insane in the state to attempt manufacturing work the results will be watched with more than ordinary interest, and those who are interested and familiar with the development of this department have expressed themselves as astonished with the excellent progress already made.

Because of the mental calibre of the men employed in this department no power machines are used, all of the machines being operated by either hand or foot power, and thus is the possibility of painful and stressing accidents to workers, through sudden violent mental aberration, reduced to the minimum.

The products of the industrial department of the hospital for the insane criminals embrace the weaving of cloth of common use in the va-

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

PEACE DECLARED AT LAUMAN HOME

Well Known Farmer Says Tanlac Easily Defeated Forces of General Bad Condition.

Anderson, Ind., May 2.—"Everything is different at my house since Tanlac has been used," Robert Lauman, a well known Madison county farmer, who lives on Rural Route No. 2, Anderson, recently said.

"My wife suffered from kidney and bladder trouble several months," Mr. Lauman continued. "She was bedfast nearly sixteen weeks. Pains resulting from inflammation of the brain almost drove her insane. From 140 pounds when she was taken sick she quickly lost weight until she weighed only 98 pounds. She also was nervous and couldn't sleep and stomach and bladder trouble caused her great pain.

"Since she began taking Tanlac, Mrs. Lauman, who is 54 years old, has gained weight and strength every day. She seems like a different woman. For the first time in sixteen weeks she is able to sleep peacefully. The gas has disappeared from her stomach, the nervousness has been relieved, and the terrible headaches occur no more.

"She expects to continue the use of Tanlac, for, she told me, that it had done her more good than any other medicine and that she expected it to make her as well and strong as she ever was in her life."

rious state institutions; the knitting of socks and mittens; the making of "sneaks," or cloth shoes, used by the inmates of the state hospital; the weaving of fiber door mats; the making of mattresses and various other articles of common use in the state institutions. More important than the possible profit that may result from this venture through the sale of the products manufactured is the great interest the inmates who are employed at the work have shown in their efforts. The little plant has given them something else center their minds upon than blank space and their pet hallucinations, according to its friends

French Troops Strike Most Successful Offensive Blow Since Verdun Fighting Began

DRIVE DEFINITELY CHECKED

(By United Press.)

Paris, May 2.—In the most successful offensive blows delivered by General Petain since the crown prince lost the Verdun offensive, troops late yesterday captured 500 yards of German trenches southeast of Fort Douaumont.

The war office also announced today that in the successful attacks against the German positions on the slopes of Dead Man's Hill during Saturday and Sunday the French captured 1,000 yards of German trenches to a depth of from 300 to 600 yards.

No news from the Verdun front since the beginning of the crown prince's offensive has aroused such enthusiasm in Paris as the publication of today's communique. It was taken to mean not only that the German drive had been definitely checked, despite repeated German assaults on Sunday, but that the offensive has now passed to the French army.

Attorney For Samuel Robinson Pleads Defense is Not Ready For Murder Trial

MAY ASK DEATH PENALTY

(By United Press.)

Bedford, Ind., May 2.—When the murder trial of Samuel Robinson, 19, was called here today, J. E. Boruff, his attorney, asked for a continuance to the next term of court, urging that the defense was not yet ready for trial, and it was granted.

Robinson shot and killed Frank Quackenbush, foreman of the quarry at Peerless after Quackenbush had discharged him and refused to pay him at once, according to the charges. When arraigned Robinson pleaded not guilty. There were indications that the defense would plead temporary insanity and that the state would ask the death penalty. When Robinson was arraigned his attorney made an unsuccessful plea for a later trial date.

For nearly six years the widow of Quackenbush, by virtue of the new Indiana Workingman's compensation act, 55 per cent of the earnings of her husband, who drew an annual salary of \$1,248. The money will be paid by the United States Fidelity and Guarantee Co., with which the stone quarry held insurance for all its kind in the United States, it is said. Mrs. Quackenbush will receive \$13.20 a week for a total of 300 weeks.

Twelve members of the Tri Kappa sorority were present last evening at the meeting held with Mrs. Will Norris in North Main street. A business session and social good time filled the evening, which closed with the service of delicious refreshments.

Honoring their house guests, Mrs. F. B. Stearns and Miss Anna Stearns entertained with a pretty little dinner party last evening. Spring flowers were the only decorations used on the table at which the delectable dinner was served. The party was composed of Mrs. C. D. Gibson and Mrs. Frank Nowline, both of Bright, Indiana, Mrs. Petry, Miss Kathryn Petry and Harry Petry.

Mrs. Lige Billings entertained the members of the N. S. K. Club at her home near Gings Thursday afternoon. The guests were pleasantly entertained as they chatted over their needlework and dainty refreshments were served. The club members present were Mrs. Gilbert Austin, Mrs. Robert Jarrett, Mrs. Carroll, Clifton, Mrs. Claude Hunt, Mrs. Clarence Daubenspeck, Mrs. Will Hinchman, the Misses Marjorie, Georgia and Wilma Hunt, Mary Ella Daubenspeck and Beatrice Austin.

A company of the friends of Mrs. Cora Nixon in and about the city arranged and executed a very clever surprise on her last evening, the affair being in honor of her birthday. Immediately after supper, the guests arrived at her home bringing delicious refreshments with them, which were served at the close of a merry time together. In the party were Mr. and Mrs. Omer Gartin, Mr. and Mrs. Alva Newhouse, Mr. and Mrs. John Allison, Herschell Newhouse, Mr. and Mrs. Raymond Gartin, Mr. and Mrs. John Gartin and daughter, Adonis Garrell.

EMBROIDERY CLUB

Apple blossoms, with their welcome breath of spring were used profusely in decorating the home last evening when the Misses Florence and Elizabeth Gronier entertained the members of their Embroidery Club with a pitch-in dinner. French baskets filled with these spring blossoms were placed all about the rooms, a fragrant bouquet was in the center of the long dining table, and tiny bunches were at each place as souvenirs for the guests. The effect in all was a dainty and refreshing one. A delicious dinner was served and a pleasant evening followed. The company enjoying this delightful affair included Miss Mable Claire Long of Indianapolis, Miss Elizabeth Jay of Richmond, Mr. and Mrs. Frank Forry, the Misses Ellen Wortham, Zora Carney, Marian Tittsworth, Mable Tyner, Marjorie Smith Teeco and Laura Holden, Ruby Howell, Viola Jay, and Will Jay and John Powers.

MONDAY CIRCLE

The meeting of the Monday Circle held with Mrs. E. B. Thomas yesterday afternoon held a number of interesting discussions for the members, the subject of the afternoon being, "The Great French Realist of the 19th Century," Mrs. Edith Waggener's paper on "Balzac," and Mrs. Clara Lambert's paper on "Flaubert" brought out interesting and profitable facts about the lives and works of these novelists. Reports from the federation of clubs held in Shelbyville lately were given, the principal report being given by Mrs. Ione Abercrombie, and other short talks made on the work accomplished by Mrs. Clara Lambert, Mrs. Blanche Abercrombie, Mrs. Lenore Blackledge, and Miss Jennie Madden, all of whom attended the federation, the first two named being delegates. During the serving of tea, Mrs. Thomas was assisted by Mrs. James E. Watson, the ladies enjoying a social hour together over their tea cups.

DANIEL'S VERACITY IS ATTACKED TODAY

Admiral Fiske Says in Letter Navy Head is Suffering With "Lapse of Memory"

MARSHALL HOLDS UP REPORT

(By United Press.) Washington, May 2.—The veracity of Secretary Daniels was attacked today in a letter sent the senate by Admiral Fiske. A ruling by Vice-president Marshall suppressed the report for a time but Senator Lodge who also had been sent a copy made known the gist of the contents.

In a recent letter to the senate Daniels said he had not seen a letter from Admiral Fiske of November 9, 1914, warning the navy department of the unprepared state of the navy.

Fiske's letter flatly contradicts this and he supports his statement that Daniels had been handed the document by the testimony of navy officers.

Fiske quoted from his own diary to prove this point. He said Daniels apparently had suffered from a "lapse of memory."

CAR SERVICE IS RESUMED

Compromise Wage Scale is Accepted at Pittsburgh Today

(By United Press.)

Pittsburgh, May 2.—Resumption of street car service with the strike still unsettled was assured here at 1:30 o'clock this afternoon. At that time the labor temple conference of the strikers had adjourned with the vote unannounced but with the men under instructions to return to their barns and prepare to resume their respective runs.

It was learned unofficially that the vote on the compromise wage scale submitted to the men this morning was about ten to one in favor of acceptance.

Beautify Your Porch

The time has come when most people are moving out onto their porches. Your summer living quarters should be just as cozy and beautiful as the rest of your home, and with that desire in mind, we have assembled many furnishings that will accomplish that purpose. A few new things placed advantageously, will work wonders

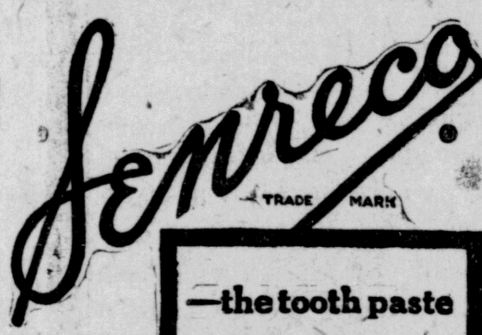

¶ We are showing a splendid variety of new designs in porch rugs. The colors are wonderful and the patterns are both neat and novel. There is a great range of sizes, allowing you to use the same design throughout. The showing also includes runners in varying widths.

¶ We are introducing a new line of porch shades—the Cliptwood—and we consider them as good as the best. They can be had in green or brown and in several widths. Also window awnings in several widths.

¶ Nothing adds more to the attractiveness of the porch than gorgeous cretons tastefully arranged. Style demands them, so use them profusely for chair covers, table runners, pillows, etc.

WOMEN GET IN FRONT RANKS

Several Cases Known in Which They Have Joined Russian Army and Make Good Soldiers

SOME GET ST. GEORGE CROSS

Mashers of Broadway Can Take a Lesson From This Massive Army—Real Patriotism Shown.

(U. P. Staff Correspondent.)

Petrograd, May 3.—The mashers of Broadway, New York; State street, Chicago, or Market street, San Francisco can take a lesson today from the front lines of the massive Russian army.

There are women in these front line ranks—pretty women, fired by martial patriotism to fight for Russia or to avenge a fallen father or brother.

Every Russian soldier is a child of the Czar. Every Russian fighting woman is a child of her regiment. And she is protected as such. It is against military regulations for women to be found in Russian regiments. Consequently, it has been seldom that stories of female fighters filtered back to Petrograd from the fighting fronts. But the heroies of Russian Amazons are brought to light just the same.

A Russian soldier has just been decorated with the cross of St. George for gallantry. "He" was Vera.

When the Russians took Novosiolky, south of the river Styr, and captured 2,000 prisoners, no soldier wielded a bayonet more handily than Vera.

Every man of Vera's regiment deserved a medal, declare the reports, but Vera, who outwardly looks exactly like any Russian private, got the Cross, because she was a woman.

Vera's comrades agreed that if there was to be a medal, it should go to Vera. And Vera got it.

From Galicia comes another story of one of these Russian Amazons. Tanja Kakourine cut "his" hair short and joined a Russian regiment because her mother did the same in the Russo-Turkish war of 1877.

Tanja is 16. She is as brave as the best of Russian troopers. She has fought in many actions. She has been recommended for the Cross.

Tanja is pretty; her round, healthy face surmounting a trim military cloak that sets off her loveliness. She talks and laughs like a child and is the idol of the rough soldier-comrades who protect her by common accord and act toward her as fathers and brothers.

The soldier who dared touch Tanja unkindly would die at the hands of his regimental companions.

MAKE SOLDIERS IN SHORT TIME

Swiss System of Military Training Requires Only Few Days Each Year For Limited Time.

INTEREST TAKEN IN WORK

Employers Let Their Men go to Camps and Generally on Full Pay—Know How to Fight.

By WILLIAM G. SHEPHERD

(U. P. Staff Correspondent.)

Berne, May 3.—"My son and his regiment knew how to die but they didn't know how to fight."

The English father who said this of his dead soldier son who had been trained only three months paints a picture of the plight of the average American if the United States were plunged into war and needed millions of troops quick.

It's all right to know how to die, they say here in Switzerland, but it's better to know how to fight. By fighting you lessen your chance of dying. A soldier hasn't got any right to die, unless there's nothing else left for him to do.

Fighting today is an exact science. Read a book of military instructions. It tells you every last thing a soldier ought to do, in every possible contingency. Master militarists have worked it all out and put it down. Swiss citizen-soldiers know how to do twenty different things in a pinch, before they resort to dying. They know how to die too if it comes to that.

How long does it take a Swiss youth to learn how to fight instead of die?

How long would it take an American youth to learn the same thing? Just one hundred and fifty three days!

Of forty-eight years, a Swiss citizen-soldier gives half a year to learning how to be one of the best soldiers in the world.

In all this he is forced to fire only 1,000 shots. He does fire more, it is true, because his 1,000 shots teach him that sharpshooting in the open air is more fun than kelly pool shooting in a smoke filled room.

Switzerland is full of shooting clubs. One hundred and forty-three days in camp and the firing of a rifle 1,000 times in twelve years and you've got your crack Swiss private soldier.

Two hundred and thirty-eight days, taken out of a lifetime, makes a corporal. A sergeant is made in 282 days and a lieutenant spends 402 days, out of his entire life, to learn his job. A captain of forty-eight years has put in 588 days, altogether.

These periods of learning and experience are spread over a long stretch of time.

The first bit is sixty-five days. When you're twenty years old, you go into a military school for that time.

You don't give up your job to do it, either. Let your boss try to give your job to somebody else while you're gone, no matter whether you're a bank clerk or a farm hand; he'll go to jail if your job isn't open for you when you come back.

What's more, if he has any pride at all, he'll pay you your wages while you're gone. Let his neighbors find out he didn't and they'll cut him dead.

The next year, when you're twen-

ty-one, you'll troop off in the summer to a military camp where you'll spend eleven days and every summer after that, for 10 summers, you'll spend eleven days in camp.

By this time you're thirty-two years old, and at that age, you pass out of the regular army into the landwehr.

You'll do eleven days every four years, until you have served an additional twenty two days. So you've served in all, 153 days.

All this time, from the day you left the military school when you were twenty, you've had your rifle, uniform, field kit and ammunition hanging up on a handy nail at home, ready to take down and march off with, if the call to arms was sounded.

He's a better man than you are, Mr. Average American Citizen and you'd admit it if you walked the streets of these Swiss towns. You'd know how to die, in a pinch; but any man knows that. This fellow knows how to fight.

AMERICA FIRST IS A SUBTERFUGE

Democrats in Congress Fail to Live up to Their Slogan With Dyestuff Industry.

U. S. DEPENDENT ON GERMANY

But Congress Refuses to Give Infant Business Protection so it Can Thrive.

Washington, May 3.—The Republican Publicity Association, through its President, Hon. Jonathan Bourne Jr., today gave out the following statement at its Washington Headquarters:

"Although about a year has elapsed since the Democratic party sought to appropriate to itself, for campaign purposes, the motto 'America First,' the party has given any tangible evidence that they regard the motto as anything more than a convenient catchword for temporary use. They feel no more bound by adoption of the motto than they do by the platform pledges adopted at Baltimore, in 1912.

"A recent vote in the Senate has afforded conclusive evidence that America is not first in the Democratic mind. During the debate on the bill to retain the duty of about 1c per pound on sugar, which, under the Underwood-Simmons law would have been removed on May 1st, and which the Democrats must have in order to eke out the scanty revenues which their own laws are producing, Senator Lodge offered an amendment to provide for adequate protection to American capital and labor in the development of the dyestuffs industry in this country. Everyone knows how dependent we have been upon Germany for chemical coloring material, and how seriously many of our industries have been hampered because the war shut off our supply from that source. Because of the scarcity of dyes, the cost of production of almost every important manufactured article has been largely increased. There is probably no other one factor which has exerted so much influence in raising the retail prices of articles in common use as the scarcity of dyestuffs.

"Every business man in America has been brought to realize the importance of the permanent establishment of a dyestuffs industry in this country, and everyone knows that the one and only method by which we can secure our industrial independence in this respect is to provide adequate tariff protection for our own dye makers, who will thus be induced to supply our needs.

"That such a plan would be successful is not only supported by reason but may be shown from abundant instances in our industrial history. Twenty-five years ago, for example, we were dependent upon the Welsh tinplate manufacturers, but the tariff rates established in the McKinley law gave us a tin plate industry of our own and made us, in that respect, industrially independent.

"In the fact of practical certainty that upon the close of the European war, Germany will again operate her dyestuff plants at full capacity, and again supply our markets thus ruining those temporary manufacturing establishments which have been started in this country by reason of the protection afforded by the war, it would seem incredible that any man who sincerely believed in 'America First' would hesitate to support legislation which holds out any inducement for the establishment of dyestuffs enterprises on a permanent basis.

"Yet the Democrats in the Senate, to a man, refused to listen to the plea for a genuine 'America First' policy. They voted the Lodge amendment down and their chief spokesman in the brief debate which took place assured the Senate that after the war we can get plenty of dyes from the foreign factories which will be glad to supply this splendid market. The Democratic Senators have put America not first, but second.

"Since this is the attitude which

the Democratic party maintains towards American industry, it is scarcely to be believed that men who are genuine believers in 'America First' will vote in November to continue the legislative and administrative branches of our government in the control of the Democratic party."

(By United Press.)

Minneapolis, Minn., May 2.—Gov. J. A. A. Burnquist, Mayor Wallace G. Nye and other notable fat men skipped about lightly in a giddy moving picture comedy that was a feature of the Northwest movie men's annual convention here today. The comedy was filmed at a public exhibition and Minneapolis girls were the stars. The Northwest convalescence of Shriners, also in session here today, was filmed on parade.

YELLOW DOGS ARE WORTH 25 CENTS A HEAD UP AT GARY.
* * * * *

Gary, Ind., May 1.—Yellow dogs have seen their stock rise to new levels here. They are now worth 25 cents a head.

The city has guaranteed to pay 25 cents each for unlicensed dogs, and curs of this variety immediately became legal tender among the small boys.

The city decided that it cost too much to maintain two men at \$85 each and a horse and wagon for the dog pound, so the mayor and the chief of police got together and decided to let the boys do it.

The entire herd of twenty-three highgrade Holstein milk cows and two general purpose horses belonging to S. Vanderploeg, will be sold at public auction at the old Fletcher farm at Beech Grove between 3rd and 4th Avenues on the Churchman pike Monday, May 8th, 1916. Herd includes three registered cows of DeKol and Pontiac strains also registered sire Zeldenrust Miami Ward Pontiac. 441t.

TO RECEIVE BIDS FORTWOSTREETS

**Commissioners Fix May 25 for Ac-
cepting Estimates on Paving
First and Eleventh**

NO TIME SET ON CAPP ROAD

**Township Can Build Only Two at
This Time and New Salem Pike
Will Have to Wait**

Bids will be received by the county commissioners on May 25 for the paving of Eleventh street under the three-mile road law. This action was taken late yesterday afternoon after the report of the viewers had been accepted and approved.

This action on the part of the commissioners had been expected. With three petitions pending for permanent highways in Rushville township and funds sufficient for the construction of two of the roads, First street and Eleventh street, were believed to be favored. The report of the viewers on the Frank Capp, et al., road, known as the New Salem pike, which is the third road in the township, was accepted and approved and the road was ordered established but the bids were not advertised. This road will be ready for bids just as soon as the township reaches a financial stage specified by law.

The resolutions of the city council turning over both First street and Eleventh street to the county for construction were read and made a part of the Frank Green, et al., highway will be paved with concrete. This will be the first concrete highway of any length in the county and the result will be watched with interest.

The plans and specifications for the Norris ford bridge were approved and bids were advertised for May 25.

John Whitton was appointed superintendent of construction for the Omer Thompson highway. The viewers for the Charles L. Smullen highway in Washington township asked for further time and this was extended to May 20.

The commissioners were in session again today allowing the usual claims

WOULD REMOVE MAN AS KIN'S GUARDIAN

**O. M. Offutt Alleges Land Under W.
A. Cowger's Management is
Not Getting Attention**

CASE IS UNDER ADVISEMENT

Judge Sparks heard the evidence today in the case of Oliver M. Offutt against William A. Cowger in which it is sought to remove Cowger as guardian for his brother Elmer Cowger. The court took the case under advisement. It was alleged that the land under the guardianship has been allowed to depreciate and is not getting the proper attention.

The parties to the suit live in Posey township and a number of Posey township people were witnesses. It was alleged that Mr. Cowger was of unsound mind and not capable of acting as guardian. During the introduction of evidence it was brought out that Mr. Cowger was a believer in the occult. Witnesses were about equally divided as to his sanity and as to the value of the land in question.

IT MIGHT HAVE BEEN WORSE

**Nineteen Years Ago There Was
Three Inches of Snow**

Today might have been considered a cold, damp dreary spring day, but it could have been worse. For instance nineteen years ago today there was three inches of snow on the ground. Many of the older people recalled this unusual occurrence. Despite the snow that year and the late spring season the farmers all had record crops. The snow covered the ground for several hours but did little damage, according to one man who today recalled the event.

HUSBAND AT STATE FARM; ASKS DECREE

**Mrs. Mart Clevenger Files Suit For
Divorce, Alleging he Made
Threats Against Her Life**

ACTION IS A BIG SURPRISE

The troubles of Martin Clevenger seem to come in bunches. With Mart following agricultural pursuits at the state penal farm where he was recently sent upon conviction of a "blind tiger" charge, his wife is asking for a divorce. Mrs. Edith Clevenger filed the suit late last evening.

She alleges cruel and inhuman treatment and claims that he cursed her and called her vile and vulgar names. She also avers that he threatened to strike her and frequently threatened to kill her. Mrs. Clevenger also mentions that he is serving time at the penal farm and states that she was left without any means of support. She asks the custody of their three children and alimony in the sum of \$200.

The action of Mrs. Clevenger came as a surprise to many. She testified in his behalf at the recent "blind tiger" trial and seemed to take a great interest in the case. Kiplinger and Smith represent the plaintiff.

FORMER RUSHVILLE BOY IS BADLY HURT

**Harold Miller May Not Recover
From Effects of Being Crush-
ed in Elevator Machinery**

ONE OF ARMS AMPUTATED

The following from the Indianapolis Star today tells of the probable fatal injury of Harold Miller, son of William Miller of this city and himself lately a resident here:

Harold Miller, 21 years old, 925 Highland avenue, was perhaps fatally injured in an elevator accident in a store yesterday. Bicyclemen Johnson, Ludgin and Leonard investigated. Miller was lowering five barrels of salted peanuts into the basement when the brakes broke, it is said, causing him to be thrown against the elevator machinery. His arm was mashed in the cogs and was amputated at the City Hospital. His head was severely bruised.

ABOUT 500 REBELS KILLED

(By United Press.)
Dublin, May 2.—At least 500 rebels were killed and 1,500 wounded in the seven days of fighting in the streets of Dublin, it was estimated today by soldiers who completed a canvass of the city.

CITY TEAM RUNS OFF EARLY TODAY

**Young Horses Demolish Wagon and
Injure Driver, Fred Wachendorf
When Bed Comes Off.**

NO SYMPATHY WITH CLEAN-UP

**Dash Down Alley And Mount Peo-
ple's Porches When Starting
on Clean-up Trip**

A team of young horses, driven to a city wagon, with no sympathy for the clean-up movement, demolished the wagon, injured their driver, broke down an electric light pole and almost demolished the porch of a double house, this morning, when men employed by the city were preparing to start on the rounds gathering up debris as a part of the clean-up week plans.

Fred Wachendorf, who was driving the horses, and his step-father, William Trennepohl who was also in the wagon, were thrown out. The wagon bed came off and was hurled on top of Wachendorf. He was badly bruised and it was first thought that he had been internally injured. However, later in the day the opinion was expressed that his injuries would not prove to be serious.

The team started to run while in the alley between Morgan and Harrison streets near the firebell tower where the city workmen keep their tools. The horses soon got from under Wachendorf's control and before they reached the C. I. & W. railroad had deposited the wagon bed and its occupants in the alley.

Free to run as hard and fast as they pleased, the horses dashed across the railroad depositing the back end of the wagon on the north side of the railroad and the front end on the south side. Running on south down the alley, they ran into an electric light pole at the corner of the alley and Third street, breaking it off at the ground. Both horses fell down and became entangled in wires.

One managed to get up and continued to run, mounting the porch of the double house on the south side of Third street. One side of the house is occupied by Mr. and Mrs. George Priest and family and the other side is vacant. The horse got up on to the porch and fell down and kicked the side of the house and the pillars of the porch, tearing some of them loose. The whole neighborhood was aroused by the noise.

The horse finally jumped from the porch and ran on west in Third street, finally being caught near J. P. Frazee's lumber yard. In the meantime the other horse got out of the tangled wires and ran east in Third street and was caught at the central fire station.

GRAIN WOULD BE DROUGHT PROOF

**Corn and Wheat That Will With-
stand Dry Weather may be In-
troduced in This Country**

NEEDS ONLY LITTLE MOISTURE

**One is Found in Palestine and An-
other in China and Experi-
ments Will be Tried**

It is not unlikely that the majority of Rush county farmers do not know that experiments are being carried forward looking to the development of a variety of wheat and a variety of corn that will withstand drought and that will flourish on lands comparatively arid.

A wheat has been found in Palestine, growing wild, that grows thriftily on a minimum of moisture. And there has been found in China a variety of corn that is said to be proof against dry whids. Steps to provide seed of both of these cereals in this country are being taken and it is thought that both will be found growing in immense acreage, particularly in the west, within the next few years.

In an address delivered in Indianapolis one evening recently, Prof. John M. Coulter, of Chicago University, spoke of these discoveries as follows:

"More than from all other sources we lose cereal crops by reason of drought. No wild wheat could be found in the world until Aaron Aronson, a young Jew, reasoned that this, one of the oldest, if not the oldest, food crop in the world, might be found wild in Palestine and that when found it would be free from the weaknesses of our present wheat. He did find in it Palestine growing literally on rocky ground and with very little moisture.

"He took this to Europe but met a cold reception. He then wound his way into the laboratory of the Chicago University. Wealthy Jews put up the money to send him back to Palestine to cultivate this wheat and prepare to provide the world with seed. The process was well along when the war broke out, but in the meantime samples had been sent to American agricultural stations. Aronson is now moving his plant to this country and in a short time it is expected that seed will be provided for wheat on the arid plains of the west.

"One thread of silk runs from each kernel of corn to the top of the ears of our corn. This must be constantly moist in pollen time or the kernels will not fill out. A dry blast of wind in the west may destroy this moisture in a few hours and the crop will fail.

"A Presbyterian missionary in Chicago found a species of corn which beats the dry wind. Its leaves grow so as to form a little pocket or funnel. The pollen is shaken down from the tassel and is caught in this funnel. The silk of the corn grows up through this pollen and by the time it reaches the hot blast the kernels are fertilized. This corn is also being cultivated for seed and our western dry plains will be covered with it."

BEGINS SIXTH YEAR

Yesterday marked the beginning of the sixth year of the Rev. C. M. Yocum's pastorate at the Main Street Christian church. The coincidence was noted yesterday that he and Mrs. Yocum came here five years ago May 1 and that the day of their arrival here was Monday, just as May 1 this year fell on Monday.

Mrs. J. O. Price is critically ill at her home north of Milroy.

WORKING ON REPORTS NOW

**Assessors Have Assessing Work
About Completed**

The assessors have about completed their work for this year and will spend most of the next two weeks in making up their reports. Only a few people have not been assessed and the work is completed in many of the townships. In Rushville only a few remain to be assessed and these are of a class that is hard to find. The assessors must report by May 15 and the time from now on will be taken up with getting out the reports.

GERARD ARRIVES FROM CONFERENCE

**Germany's Reply to American Note
on Submarine Question is
Now Completed**

FEW ALTERATIONS POSSIBLE

(By United Press.)
Berlin, May 2.—Ambassador Gerard arrived here today from a conference with the kaiser at field headquarters.

Germany's reply to the American note demanding a change in submarine warfare under threat of diplomatic break has been completed.

Some few alterations may be made in its text. These, however, will not alter the character of the note which was decided upon several days ago. Nothing definite can be learned as to when it will be dispatched but it is thought possible it will be put on the cable to Washington tonight or tomorrow.

STATE MILITIA IS TO BE CALLED OUT

**Following Serious Rioting at Pitts-
burgh Steel Plant Today, Sheriff
Makes This Announcement**

THREE KILLED; FORTY HURT

(By United Press.)
Pittsburgh, May 2.—Following serious riots in which three were killed and at least forty injured, many seriously at the Edgar Thompson Steel company's plant Braddock, Sheriff Richards announced this afternoon that the militia will be ordered out at once. He made that statement after a hurried conference with state officials.

Pittsburgh, May 2.—One hundred coal and iron police of the Carnegie Steel company were brought to the Pittsburgh district today from Gary, Ind., and Youngstown to help guard the Edgar Thompson steel plant at Braddock and other big plants where strikes are threatened. It was announced that 400 members of the special police would arrive during the day.

The big Braddock plant operated today with a reduced force. Report of a number of defections ranged from 1,000 to 5,000. Resumption of rioting by the Westinghouse and allied strikers was expected momentarily.

BRITISH TO TRY CONSCRIPTION

**Premier Asquith Announces Today
Government Has Decided on
Policy of General Compulsion**

BILL WILL BE INTRODUCED

**Since Beginning of War British
Have Raised Army of 5,000,000
Men, Premier Says**

(By United Press.)
London, May 2.—Premier Asquith this afternoon announced in the house of commons that the government has decided upon a policy of immediate and general compulsion in England.

The government will introduce a bill for general conscription tomorrow. The prime minister informed commons that since the beginning of the war the British had raised five million troops. The British army is composed of 83 divisions, he said, not counting the Indian forces.

The announcement came as a complete surprise. It had been understood that the prime minister would give the voluntary system of obtaining recruits for the army a few weeks more trial before asking enactment of the law calling to the colors all married men eligible for service as well as single men included in the conscription measure which recently passed Parliament.

Premier Asquith's decision for compulsory service is a complete victory for Minister of Munitions Lloyd George and the Northcliffe papers which have waged a campaign for general military service for many months.

HIS MOTHER DISAPPEARS

**Flatrock Boy Unable to Explain
Why She Left Him on Street**

(By United Press.)
Indianapolis, Ind., May 2.—John Lee Anderson, age 10, son of Mr. and Mrs. Charles Bebout, farmer, living near Flatrock, Shelby county, Indiana, could not explain today the mysterious disappearance yesterday of his mother while they were on the street here together. He was taken to the detention home today while the police started a search for the mother. If found, she will be asked to explain the seeming desertion of her child.

—Miss Stella Shortridge of Falmouth went to Indianapolis this afternoon for a visit with friends and relatives.

—Frank Thompson of Indianapolis, formerly of this city, was here today on business. He spent last week in Mississippi.

Church Advertising

"I believe," says Dr. Talcott Williams, "that if the churches spent as much for advertising as they do for music, they would have larger congregations and better worship."

"If great causes were to spend more money in the public press instead of depending on begging for their support they would undoubtedly come much nearer to success."

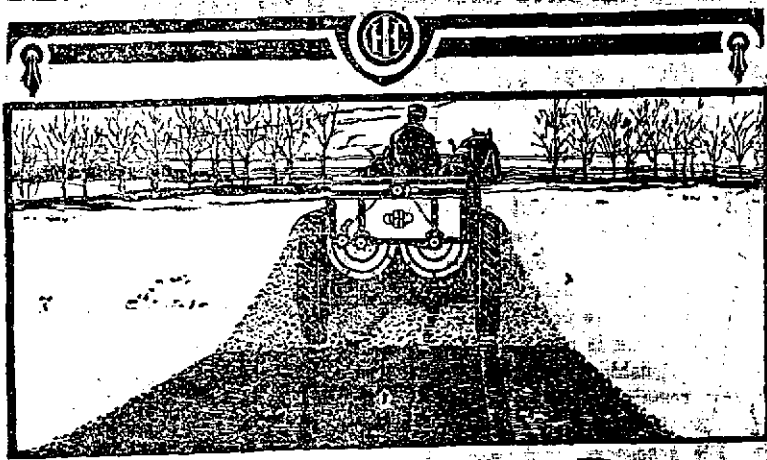

Thought is moving in this direction. The churches are using more and better advertising while many public movements have been successfully carried on through the advertising columns of the daily newspapers.

Drive It Into the Barn

AS we told you, a **Low Cloverleaf** gives the manure a double beating. It also **spreads manure eight feet wide or better.** But the wonderful thing is that it does this **from a box only 45 inches wide.** The spreader itself is so narrow that it can be driven into any modern barn and loaded from the gutters. Only one handling of the manure for the quickest, best job of spreading you ever did. How does that sound to you?

If you have even begun to think about buying a spreader, see this **Low Cloverleaf.** You will say you never saw a better manure spreader. It won't take long to look it over. Your dealer has one set up for you to see.

For every dollar you put into a
Coldwell Lawn Mower
you get full 100 cents value.

Coldwell's are the lasting kind. Always ready to use. None of that waiting to have them sharpened.

Coldwell's have been on the market since 1855. The largest lawn mower factory in the world is their home.

Coldwell materials and workmanship are what make the **Coldwell** product supreme.

You pay a trifle more for a **Coldwell**, but in the end they cost you less—you save money on repairs and for re-sharpening.

You can forget where the "repair shop" is if your lawn mower is a **Coldwell.**

Glenwood.

The Rev. Daniel Ryan was called to Waldron Sunday afternoon to preach the funeral of Captain Thomas L. Haymond, an old friend and comrade who died from injuries sustained when his automobile was hit by an interurban car in Waldron last Tuesday. There were no preaching services at the M. E. church Sunday on that account. Epworth League was held as usual Sunday evening.

The usual services were held at the United Presbyterian church Sabbath afternoon.

Many Glenwood citizens have been attending the trial of the Hinchman will case at Newcastle.

Marshal Brooks was kept busy Sunday watching for motor speeders on the Rushville-Connersville pike.

Mr. and Mrs. Grant Palmer of Greensburg and Mrs. Addie Reed and Sheridan Palmer of Glenwood motored to Knightstown Sunday to see Mrs. Harry Farmer, who is critically ill.

Mr. and Mrs. J. E. Fisher and sons Gilbert and Park spent the week end at Fairfield, Fayette county.

C. L. Reed and G. E. Holmes attended the district meeting Red Men at Rushville last Thursday.

Mr. and Mrs. Oliver Mingle of Connersville visited here and Mrs. Mingle's parents and his brother at Orange Sunday.

Mr. and Mrs. James Brooks of Dunreith motored to Glenwood Sunday and visited their sons, Monroe and Badge.

C. M. Demoss, an old time resident of this place, who now lives south-east of here, spent a few days last week in Indianapolis.

Isaac Baker and Harry Wilson are recovering from an attack of the measles.

Ernest Perry is assisting George C. Jones erect a new house just north of the Bibby stop on the I. & C. traction line east of here.

Mr. and Mrs. Clattie Stevens of south of Connersville visited the former's parents here Sunday and took Mr. and Mrs. T. J. Stephens out for an automobile ride.

Mr. and Mrs. J. H. Link and son Leslie and Mr. and Mrs. Clyde Matney spent Sunday with Mr. and Mrs. Elmer Stevens of Orange.

William Cameron took the teachers' examination at Connersville Saturday.

Mr. and Mrs. Charles Newhouse spent Sunday with Dr. and Mrs. J. E. Walther.

Mr. and Mrs. A. P. Reynolds and daughter Vera visited Mr. and Mrs. Will Havens of West Arthur street, Rushville, Sunday.

James Ochiltree was a witness in the Hinchman will case at Newcastle one day last week.

Many young people from here attended the baccalaureate sermon at the Orange Christian church Sunday night.

Will Larimore has moved his stock of goods to Columbia, Fayette county, where he will set up in business.

Miss Violet Burkhardt of East Connersville, who was a roommate of the late Miss Gladys Mapes in Indianapolis, stopped off Sunday for a visit with Mr. and Mrs. John Mapes.

Blue River.

The farmers have been greatly delayed in their spring work on account of the heavy rains.

The little child of Mr. and Mrs. Chas. Northam is suffering with the scarlet fever, but is reported to be past the danger point and convalescing.

The funeral of George Brown was held at the Little Blue River United Brethren church at 10 a. m., Sunday. The Rev. Mr. Powell, the pastor conducted the services.

Samuel Moore is making preparations to build a new barn.

A number of people from here attended the lecture given by Prof. Jones, of Earlham College, at the Westland Friends church Sunday afternoon. The subject was "Present Day Opportunities."

The community was well represented at the Manilla high school commencement held Friday night, in the

large auditorium of the new school building there. The address was given by the Rev. Geo. A. Winfrey, of Alexandria, Ind. Music by the Shelbyville orchestra. There were five graduates in the class.

Weidall Pitts is preparing to do "Gasoline Farming" this season. He has purchased a new tractor and plows.

D. A. Macy and family were guests of Mrs. Macy's father and mother, Mr. and Mrs. Noah Wooten, of near Westland, Sunday.

Carroll Pitts has been making a study of wireless telegraphy for some time, having erected a first class receiving station. He has become efficient enough now so that he receives the weather forecasts, the time, and general press news from the Government stations at Washington, Key West and Pensacola also from other commercial stations. He has been getting news of Mexican and European affairs before they would appear in the daily papers.

Russell and Erdi Pitts were visitors to Indianapolis Sunday.

Jasper Hester is having timber sawed to use in the erection of a new stucco finished residence.

Frank Thayer, who recently purchased the farm formerly owned by Charles Macy, is preparing to build a new barn.

Miss Monnie Macy, who some time ago underwent a successful operation for the removal of a tumor, at Rochester, Minn., is soon to leave for home.

WOULD NOT LIKE BLUE BOOK HERE

This Part of Swiss Military System
Would Not Make a Hit With
American People.

IS NOT THOUGHT PRACTICAL

Shows Record of Bearer and Federal Government is in Control at all Times.

BY WILLIAM G. SHEPHERD
(U. P. Staff Correspondent.)

Berne, May 2.—A little blue book, Mr. American, with your name and your photograph and a score of facts about your life written in it, which you would carry in your pocket all the time, would be the token of the upheaval in American life which would be caused by the introduction of the Swiss military system, in its entirety, in the United States.

"Here's my book," said Luigi Corti, a storekeeper of Chicago, who used to live in Texas. "Every Swiss must carry his book with him. When I go to the bank I take it. When I go to a strange Swiss city I'm asked for it. I show it when I register at the hotel, when I draw money, when I send a telegram. My book will show it."

"Do you think Americans would like to have to carry books like that?"

"Not the kind of Americans I used to know in Texas twenty years ago. Americans don't like their government to interfere with them," said Luigi.

Luigi was in the American army during the Spanish-American war.

"This little book," he explained, "is issued by the federal government. Down in Texas the folks got along alright with the mayor and the policemen and the sheriff, but the minute you said 'United States Marshal' they picked up their ears. 'American folks don't like to be governed by Washington.'"

Luigi Corti had his Texas folks right. He had a lot of other Americans right, too. This little blue book would mean that you were tabbed and listed by the federal government.

Some years ago this would have sounded more un-American than it does today, because in reality you are now tabbed and listed in the federal income rolls. But this little book of military service and citizenship would keep you in your niche, right under the eye of the federal military authorities, all the time.

If you left Chicago to live in Cleveland you would be forced to have your military book vided by the military commander of the city you were leaving and signed by the commander in the city to which you moved.

A centralized government would

Russia Will Keep Prohibition as Far as Vodka is Concerned—Will Permit Wines.

PASSAGE OF LAW ASSURED

(By United Press.)

Petrograd, May 2.—Russia will continue "dry" after the war, so far as vodka is concerned. The limited

sale of beer and light wines will be permitted.

The bill for both prohibition and limitations has been introduced in the duma and its passage is assured. The czar and his advisors approve it. Finland is not included.

"It is forbidden to produce alcohol for vodka," says the bill, "or to import alcohol."

Alcohol production for mechanical and medicinal purposes is authorized only by the government. Its sale, except by the government, is prohibited. The order against production will include individuals, even though their product be only for their own household consumption.

The sale of beer and light wines will be prohibited except in towns. Local councils may prohibit it altogether.

The government also will limit the percentage of alcohol in both beers and wines.

PEACE DECLARED AT LAUMAN HOME

Well-Known Farmer Says Tanlac Easily Defeated Forces of General Bad Condition

Anderson, Ind., May 2.—"Everything is different at my house since Tanlac has been used," Robert Lauman, a well-known Madison county farmer, who lives on Rural Route No. 2, Anderson, recently said.

"My wife suffered from kidney and bladder trouble several months," Mr. Lauman continued. "She was bedfast nearly sixteen weeks. Pains resulting from inflammation of the brain almost drove her insane. From 140 pounds when she was taken sick she quickly lost weight until she weighed only 98 pounds. She also was nervous and couldn't sleep and stomach and bladder trouble caused her great pain."

"Since she began taking Tanlac, Mrs. Lauman, who is 54 years old, has gained weight and strength every day. She seems like a different woman. For the first time in sixteen weeks she is able to sleep peacefully. The gas has disappeared from her stomach, the nervousness has been relieved, and the terrible headaches occur no more."

"She expects to continue the use of Tanlac, for, she told me, that it had done her more good than any other medicine and that she expected it to make her as well and strong as she ever was in her life."

"Such strong testimony as to the merits of Tanlac, the Master Medicine, is being heard every day. Tanlac, is especially beneficial for stomach, liver and kidney troubles, nervousness, rheumatism, loss of appetite, coughs, colds and the like. Tanlac is sold exclusively in Rushville at F. E. Wolcott's drug store.

TAKE 550 YARDS OF GERMAN TRENCHES

French Troops Strike Most Successful Offensive Blow Since Verdun Fighting Began

DRIVE DEFINITELY CHECKED

(By United Press.) Paris, May 2.—In the most successful offensive blows delivered by General Petain since the crown prince lost the Verdun offensive, troops late yesterday captured 500 yards of German trenches southeast of Fort Douaumont.

The war office also announced today that in the successful attacks against the German positions on the slopes of Dead Man's Hill during Saturday and Sunday the French captured 1,000 yards of German trenches to a depth of from 300 to 600 yards.

No news from the Verdun front since the beginning of the crown prince's offensive has aroused such enthusiasm in Paris as the publication of today's communique. It was taken to mean not only that the German drive had been definitely checked, despite repeated German assaults on Sunday, but that the offensive has now passed to the French army.

Attorney For Samuel Robinson Pleads Defense is Not Ready For Murder Trial

MAY ASK DEATH PENALTY

(By United Press.) Bedford, Ind., May 2.—When the murder trial of Samuel Robinson, 19, was called here today, J. E. Boruff, his attorney, asked for a continuance to the next term of court, urging that the defense was not yet ready for trial, and it was granted.

Robinson shot and killed Frank Quackenbush, foreman of the quarry at Peerless after Quackenbush had discharged him and refused to pay him at once, according to the charges. When arraigned Robinson pleaded not guilty. There were indications that the defense would plead temporary insanity and that the state would ask the death penalty. When Robinson was arraigned his attorney made an unsuccessful plea for a later trial date.

For nearly six years the widow of Quackenbush, by virtue of the new Indiana Workmen's compensation act, 55 per cent of the earnings of her husband, who drew an annual salary of \$1,248. The money will be paid by the United States Fidelity and Guarantee Co., with which the stone quarry held insurance for all its kind in the United States, it is said. Mrs. Quackenbush will receive \$13.20 a week for a total of 300 weeks.

GREAT EXHIBIT IS EXPECTED

State Correctional Institutions Will Show Products at National Conference Next Week.

TO COVER ALL DEPARTMENTS

One of Interesting Features Will be That From State Prison Hospital For Insane.

(By United Press.) Indianapolis, Ind., May 2.—The forty-third annual session of the National Conference of Charities and Correction to be held in Indianapolis, May 10 to 17, promises to bring out the greatest exhibit of products of the State Correctional and Charitable institutions ever offered for inspection. Among the interesting exhibits promised is that of the Indiana State Prison at Michigan City. The exhibit from this institution will embrace features from practically every department of the Prison.

Not only will the articles manufactured in the Prison be displayed, but also charts and figures will be exhibited showing the growth of the institution from the date of its founding down to the present time; school statistics will be offered; a photographic story of the prison will be shown; exhibits of special classes in an architectural and figures will be exhibited and a score of other interesting features will be offered for the public inspection.

One of the most interesting features of the State Prison will be the exhibit of the products of the industrial department of the Indiana hospital for insane criminals. In view of the fact that this institution is the first institution for the insane in the state to attempt manufacturing work the results will be watched with more than ordinary interest, and those who are interested and familiar with the development of this department have expressed themselves as astonished with the excellent progress already made.

Because of the mental calibre of the men employed in this department no power machines are used, all of the machines being operated by either hand or foot power, and thus is the possibility of painful and stressing accidents to workers, through sudden violent mental aberration, reduced to the minimum.

The products of the industrial department of the hospital for the insane criminals embrace the weaving of cloth of common use in the va-

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain multifid coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multifid coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last several months.

Honoring their house guests, Mrs. F. B. Stearns and Miss Anna Stearns entertained with a pretty little dinner party last evening. Spring flowers were the only decorations used on the table at which the delectable dinner was served. The party was composed of Mrs. C. D. Gibson and Mrs. Frank Nowline, both of Bright, Indiana, Mrs. Petry, Miss Kathryn Petry and Harry Petry.

Mrs. Lige Billings entertained the members of the N. S. K. Club at her home near Gings Thursday afternoon. The guests were pleasantly entertained as they chatted over their needlework and dainty refreshments were served. The club members present were Mrs. Gilbert Austin, Mrs. Robert Jarrett, Mrs. Carroll Clifton, Mrs. Claude Hunt, Mrs. Clarence Daubenspeck, Mrs. Will Hinchman, the Misses Marjorie, Georgia and Wilma Hunt, Mary Ella Daubenspeck and Beatrice Austin.

A company of the friends of Mrs. Cora Nixon in and about the city arranged and executed a very clever surprise on her last evening, the affair being in honor of her birthday. Immediately after supper, the guests arrived at her home bringing delicious refreshments with them, which were served at the close of a merry time together. In the party were Mr. and Mrs. Omer Gartin, Mr. and Mrs. Alva Newhouse, Mr. and Mrs. John Allison, Herschell Newhouse, Mr. and Mrs. Raymond Gartin, Mr. and Mrs. John Gartin and daughter, Adonis Garrell.

Apple blossoms, with their welcome breath of spring were used profusely in decorating the home last evening when the Misses Florence and Elizabeth Gronier entertained the members of their Embroidery Club with a pitch-in dinner. French baskets filled with these spring blossoms were placed all about the rooms, a fragrant bouquet was in the center of the long dining table, and tiny bunches were at each place as souvenirs for the guests. The effect in all was a dainty and refreshing one. A delicious dinner was served and a pleasant evening followed. The company enjoying this delightful affair included Miss Mable Claire Long of Indianapolis, Miss Elizabeth Jay of Richmond, Mr. and Mrs. Frank Forry, the Misses Ellen Worsham, Zora Carney, Marian Titsworth, Mable Tynor, Marjorie Smith Teco and Laura Holden, Ruby Howell, Viola Jay, and Will Jay and John Powers.

The meeting of the Monday Circle held with Mrs. E. B. Thomas yesterday afternoon held a number of interesting discussions for the members, the subject of the afternoon being, "The Great French Realist of the 19th Century," Mrs. Edith Waggener's paper on "Balzac," and Mrs. Clara Lambert's paper on "Flaubert" brought out interesting and profitable facts about the lives and works of these novelists. Reports from the federation of clubs held in Shelbyville lately were given, the principal report being given by Mrs. Ione Abercrombie, and other short talks made on the work accomplished by Mrs. Clara Lambert, Mrs. Blanche Abercrombie, Mrs. Lenore Blackledge, and Miss Jennie Madden, all of whom attended the federation, the first two named being delegates. During the serving of tea, Mrs. Thomas was assisted by Mrs. James E. Watson, the ladies enjoying a social hour together over their teteapups.

DANIEL'S VERACITY IS ATTACKED TODAY

Admiral Fiske Says in Letter Navy Head is Suffering With "Lapse of Memory"

MARSHALL HOLDS UP REPORT

(By United Press.) Washington, May 2.—The veracity of Secretary Daniels was attacked today in a letter sent the senate by Admiral Fiske. A ruling by Vice-president Marshall suppressed the report for a time but Senator Lodge who also had been sent a copy made known the gist of the contents.

In a recent letter to the senate Daniels said he had not seen a letter from Admiral Fiske of November 9, 1914, warning the navy department of the unprepared state of the navy.

Fiske's letter flatly contradicts this and he supports his statement that Daniels had been handed the document by the testimony of navy officers.

Fiske quoted from his own diary to prove this point. He said Daniels apparently had suffered from a "lapse of memory."

CAR SERVICE IS RESUMED

Compromise Wage Scale is Accepted at Pittsburgh Today

(By United Press.) Pittsburgh, May 2.—Resumption of street car service with the strike still unsettled was assured here at 1:30 o'clock this afternoon. At that time the labor temple conference of the strikers had adjourned with the vote unannounced but with the men under instructions to return to their barns and prepare to resume their respective runs.

It was learned unofficially that the vote on the compromise wage scale submitted to the men this morning was about ten to one in favor of acceptance.

Beautify Your Porch

The time has come when most people are moving out onto their porches. Your summer living quarters should be just as cozy and beautiful as the rest of your home, and with that desire in mind, we have assembled many furnishings that will accomplish that purpose. A few new things placed advantageously, will work wonders

¶ We are showing a splendid variety of new designs in porch rugs. The colors are wonderful and the patterns are both neat and novel. There is a great range of sizes, allowing you to use the same design throughout. The showing also includes runners in varying widths.

¶ We are introducing a new line of porch shades—the Cliptwood—and we consider them as good as the best. They can be had in green or brown and in several widths. Also window awnings in several widths.

¶ Nothing adds more to the attractiveness of the porch than gorgeous cretons tastefully arranged. Style demands them, so use them profusely for chair covers, table runners, pillows, etc.

WOMEN GET IN FRONT RANKS

Several Cases Known in Which They Have Joined Russian Army and Make Good Soldiers

SOME GET ST. GEORGE CROSS

Mashers of Broadway Can Take a Lesson From This Massive Army—Real Patriotism Shown.

(U. P. Staff Correspondent.)

Petrograd, May 3.—The mashers of Broadway, New York; State street, Chicago, or Market street, San Francisco can take a lesson today from the front lines of the massive Russian army.

There are women in these front line ranks—pretty women, fired by martial patriotism to fight for Russia or to avenge a fallen father or brother.

Every Russian soldier is a child of the Czar. Every Russian fighting woman is a child of her regiment. And she is protected as such.

It is against military regulations for women to be found in Russian regiments. Consequently, it has been seldom that stories of female fighters filtered back to Petrograd from the fighting fronts. But the heroics of Russian Amazons are brought to light just the same.

A Russian soldier has just been decorated with the cross of St. George for gallantry. "He" was Vera.

When the Russians took Novosjolky, south of the river Styr, and captured 2,000 prisoners, no soldier wielded a bayonet more handily than Vera.

Every man of Vera's regiment deserved a medal, declare the reports, but Vera, who outwardly looks exactly like any Russian private, got the Cross, because she was a woman.

Vera's comrades agreed that if there was to be a medal, it should go to Vera. And Vera got it. From Galicia comes another story of one of these Russian Amazons. Tanja Kakourine cut "his" hair short and joined a Russian regiment because her mother did the same in the Russo-Turkish war of 1877.

Tanja is 16. She is as brave as the best of Russian troopers. She has fought in many actions. She has been recommended for the Cross.

Tanja is pretty; her round, healthy face surmounting a trim military cloak that sets off her loveliness. She talks and laughs like a child and is the idol of the rough soldier-comrades who protect her by common accord and act toward her as fathers and brothers.

The soldier who dared touch Tanja unkindly would die at the hands of his regimental companions.

MAKE SOLDIERS IN SHORT TIME

Swiss System of Military Training Requires Only Few Days Each Year For Limited Time.

INTEREST TAKEN IN WORK

Employers Let Their Men go to Camps and Generally on Full Pay—Know How to Fight.

By WILLIAM G. SHEPHERD
(U. P. Staff Correspondent.)

Berne, May 3.—"My son and his regiment knew how to die but they didn't know how to fight."

The English father who said this of his dead soldier son who had been trained only three months paints a picture of the plight of the average American if the United States were plunged into war and needed millions of troops quick.

It's all right to know how to die, they say here in Switzerland, but it's better to know how to fight. By fighting you lessen your chance of dying. A soldier hasn't got any right to die, unless there's nothing else left for him to do.

Fighting today is an exact science. Read a book of military instructions. It tells you every last thing a soldier ought to do, in every possible contingency. Master militarists have worked it all out and put it down. Swiss citizen-soldiers know how to do twenty different things in a pinch, before they resort to dying. They know how to die too if it comes to that.

How long does it take a Swiss youth to learn how to fight instead of die?

How long would it take an American youth to learn the same thing? Just one hundred and fifty three days!

Of forty-eight years, a Swiss citizen-soldier gives half a year to learning how to be one of the best soldiers in the world.

In all this he is forced to fire only 1,000 shots. He does fire more, it is true, because his 1,000 shots teach him that sharpshooting in the open air is more fun than kelly pool shooting in a smoke filled room.

Switzerland is full of shooting clubs. One hundred and forty-three days in camp and the firing of a rifle 1,000 times in twelve years and you've got your crack Swiss private soldier.

Two hundred and thirty-eight days, taken out of a lifetime, makes a corporal. A sergeant is made in 282 days and a lieutenant spends 402 days, out of his entire life, to learn his job. A captain of forty-eight years has put in 588 days, altogether.

These periods of learning and experience are spread over a long stretch of time.

The first bit is sixty-five days. When you're twenty years old, you go into a military school for that time.

You don't give up your job to do it, either. Let your boss try to give your job to somebody else while you're gone, no matter whether you're a bank clerk or a farm hand; he'll go to jail if your job isn't open for you when you come back.

What's more, if he has any pride at all, he'll pay you your wages while you're gone. Let his neighbors find out he didn't and they'll cut him dead.

The next year, when you're twenty-one, you'll troop off in the summer to a military camp where you'll spend eleven days and every summer after that, for 10 summers, you'll spend eleven days in camp.

By this time you're thirty-two years old, and at that age, you pass out of the regular army into the landwehr.

You'll do eleven days every four years, until you have served an additional twenty two days. So you've served in all, 153 days.

All this time, from the day you left the military school when you were twenty, you've had your rifle, uniform, field kit and ammunition hanging up on a handy nail at home, ready to take down and march off with, if the call to arms was sounded.

He's a better man than you are, Mr. Average American Citizen and you'd admit it if you walked the streets of these Swiss towns. You'd know how to die, in a pinch; but any man knows that. This fellow knows how to fight.

AMERICA FIRST IS A SUBTERFUGE

Democrats in Congress Fail to Live up to Their Slogan, With Dyestuff Industry.

U. S. DEPENDENT ON GERMANY.

But Congress Refuses to Give Infant Business Protection so it Can Thrive.

Washington, May 3.—The Republican Publicity Association, through its President, Hon. Jonathan Bourne Jr., today gave out the following statement at its Washington Headquarters:

"Although about a year has elapsed since the Democratic party sought to appropriate to itself, for campaign purposes, the motto 'America First,' the party has given any tangible evidence that they regard the motto as anything more than a convenient catchword for temporary use. They feel no more bound by adoption of the motto than they do by the platform pledges adopted at Baltimore, in 1912.

"A recent vote in the Senate has afforded conclusive evidence that America is not first in the Democratic mind. During the debate on the bill to retain the duty of about 1c per pound on sugar, which, under the Underwood-Simmons law would have been removed on May 1st, and which the Democrats must have in order to eke out the scanty revenues which their own laws are producing, Senator Lodge offered an amendment to provide for adequate protection to American capital and labor in the development of the dyestuffs industry in this country. Everyone knows how dependent we have been upon Germany for chemical coloring material, and how seriously many of our industries have been hampered because the war shut off our supply from that source. Because of the scarcity of dyes, the cost of production of almost every important manufactured article has been largely increased. There is probably no other one factor which has exerted so much influence in raising the retail prices of articles in common use as the scarcity of dyestuffs.

"Every business man in America has been brought to realize the importance of the permanent establishment of a dyestuffs industry in this country, and everyone knows that the one and only method by which we can secure our industrial independence in this respect is to provide adequate tariff protection for our own dye makers, who will thus be induced to supply our needs.

"That such a plan would be successful is not only supported by reason but may be shown from abundant instances in our industrial history. Twenty-five years ago, for example, we were dependent upon the Welsh tinplate manufacturers, but the tariff rates established in the McKinley law gave us a tin plate industry of our own and made us, in that respect, industrially independent.

"In the fact of practical certainty that upon the close of the European war, Germany will again operate her dyestuff plants at full capacity, and again supply our markets thus ruining those temporary manufacturing establishments which have been started in this country by reason of the protection afforded by the war, it would seem incredible that any man who sincerely believed in 'America First' would hesitate to support legislation which holds out any inducement for the establishment of dyestuffs enterprises on a permanent basis.

"Yet the Democrats in the Senate, to a man, refused to listen to the plea for a genuine 'America First' policy. They voted the Lodge amendment down and their chief spokesman in the brief debate which took place assured the Senate that after the war we can get plenty of dyes from the foreign factories which will be glad to supply this splendid market. The Democratic Senators have put America not first, but second.

"Since this is the attitude which

the Democratic party maintains towards American industry, it is scarcely to be believed that men who are genuine believers in 'America First' will vote in November to continue the legislative and administrative branches of our government in the control of the Democratic party."

FROLIC WITH PRETTY GIRLS.

(By United Press.) Minneapolis, Minn., May 2.—Gov. J. A. A. Burnquist, Mayor Wallace G. Nye and other notable fat men skipped about lightly in a giddy moving picture comedy that was a feature of the Northwest movie men's annual convention here today. The comedy was filmed at a public exhibition and Minneapolis girls were the stars. The Northwest conclave of Shriners, also in session here today, was filmed on parade.

YELLOW DOGS ARE WORTH 25 CENTS A HEAD UP AT GARY.

Gary, Ind., May 1.—Yellow dogs have seen their stock rise to new levels here. They are now worth 25 cents a head.

The city has guaranteed to pay 25 cents each for unlicensed dogs, and curs of this variety immediately became legal tender among the small boys.

The city decided that it cost too much to maintain two men at \$85 each and a horse and wagon for the dog pound, so the mayor and the chief of police got together and decided to let the boys do it.

The entire herd of twenty-three highgrade Holstein milk cows and two general purpose horses belonging to S. Vanderploeg, will be sold at public auction at the old Fletcher farm at Beech Grove between 3rd and 4th Avenues on the Churchman pike Monday, May 8th, 1916. Herd includes three registered cows of DeKol and Pontiac strains also registered sire Zeldenrust Miami Ward Pontiac. 4411.

Gums shrinking? Danger ahead!

Go now to a mirror and examine your mouth? Do your gums look "rinsed out," shrunken? Do you see a jagged appearance in the gum-line?

If so, see your dentist. He will tell you that you have pyorrhea, and that to save your teeth you will have to fight this dread disease at once.

From pyorrhea come by far the greater part of all tooth troubles. Unless treated and checked, it will result not only in the shrinking and malformation of your gums and of the bony structure into which your teeth are set, but in the loss of the teeth themselves.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your teeth against the attack or further progress of pyorrhea.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today, or send 4c in stamps or coin for sample tube and folder. Address The Sentinel Remedies Company 503 Union Central Building, Cincinnati, Ohio.
